☐ NIST MMAP	Report of Mass	Values					

Weight Calibration includes adjustment. Troemner's Zero Tolerance Policy will be followed if your calibration weight is found to be out of tolerance and the weight will be replaced for FREE!

Restrictions may apply. Classes E1, E2, and Class 0 weights are not included.

Troemner reserves the right to make the final decision on signs of excessive wear or damage that would exclude weights from this free replacement program. Contact Troemner with any questions on these restrictions.

**NOTE: Troemner will now be sending certificates electronically along with a hard copy certificate. Please be sure to include your email address on the cover page to have the certificates sent electronically to you.

ORDER FORM
